**CA-3 R95-04-043 - Order Instituting Rulemaking on the Commission's own motion into
736 competition for local exchange service.**

I95-04-044 - Related matters. This decision denies the City of Riverside Petition for Modification/Clarification of D98-10-058, regarding those sections of the Decision that relate to the Commission's "administrative adjudication process" for rights-of-way disputes between facilities-based telecommunications carriers and local governmental entities. The City seeks to apply the Decision to include nondominant interexchange carriers.

895****R97-10-016 - Order Instituting Rulemaking on the Commission's own motion into monitoring performance of operations support systems.**

I97-10-017 - Related matters. On its own motion, by this decision the Commission converts non-working parity standards for a few Digital Subscriber Line performance sub-measures used in the Commission's Performance Incentives Plan. To make these standards workable, this decision converts these standards either to absolute "benchmarks" or to different parity comparisons. Parity standards compare an incumbent local exchange company's (ILEC) operations support system performance on behalf of competitive local exchange carrier customers to the ILEC's performance for its own customers.

H-3 A99-08-021 - Pacific Fiber Link, L.L.C.**169**

For modification of its certificate of public convenience and necessity to review proponent's environmental assessment for compliance with the California Environmental Quality Act. In this decision, the Commission is asked to decide whether penalties should apply to telecommunications carrier that began trenching and installing a fiber optic project in 1998 before it received the formal approval of this Commission under the California Environmental Quality Act (CEQA), Pub. Resources Code Sections 21000-21176. The utility in July 1999 was ordered by this Commission to stop work until it obtained formal CEQA approval six months later. Because the Commission in 1998 had no procedure in place for conducting a CEQA review for the type of utility involved, and because the utility was led to believe by Commission staff that an administrative CEQA approval was forthcoming, and because the utility itself retained environmental experts to monitor and direct its work, we conclude that, in the facts and circumstances of this case, no further sanctions are warranted. The staff appeal of the Presiding Officer's decision is denied. This proceeding is closed. (Agenda 3071, Item 5, 9/20/01).

Rulemaking on the Commission's own motion to govern open access to bottleneck services and establish a framework for Network Architecture Development of Dominant Carrier Networks. I93-04-002 - Related matters. This decision adopts permanent Unbundled Network Element rates for the High Frequency Portion of the Loop (HFPL) for both Pacific Bell Telephone Company (Pacific) and Verizon California Inc. (Verizon). The decision finds that establishing a separate rate for the HFPL allows Pacific and Verizon to over-recover their loop costs, since they currently recover the full cost of the loop through rates for the unbundled loop. Pacific and Verizon are required to return HFPL revenues to ratepayers through a surcredit on residential and business basic exchange customers bills.

729 **A98-07-003 - Pacific Gas and Electric Company (PG&E).**
For verification, consolidation and approval of costs and revenues in the Transition Revenue Account. In D99-06-058 the Commission ordered an audit of the Power Exchange energy credits (PX credits) of Southern California Edison Company, PG&E, and San Diego Gas & Electric Company. An audit was deemed necessary to insure that the PX credit on a direct access customer's bill was accurate. No termination date was set, but we provided for its eventual termination, should circumstances change. This decision grants the three utilities' petition to terminate the audit at the end of 2000. The PX credit ended when the PX suspended operations in January 2001. There is no purpose in continuing the audit. This proceeding is closed.

A02-03-012 - Level 3 Communications, LLC (Level 3).

Level 3 filed this application to provide local exchange services in the service territories of Citizens Telecommunications Company of the Golden State, Inc., Evans Telephone Company, and Sierra Telephone Company, Inc. This decision denies the application because the Commission has not opened the requested service areas to local exchange competition. This decision also establishes requirements Applicant will have to meet for filing a notice of a request to an incumbent local exchange carrier for interconnection, services, or network elements, pursuant to Section 251(f) of the Telecommunications Act of 1996. For approval of a Plan of Merger of Pacific Enterprises and Enova Corporation with and into B Energy Sub ("Newco Pacific Sub") and G Energy Sub ("Newco Enova Sub"), the wholly-owned subsidiaries of a newly created holding company, Mineral Energy Company. In D98-03-073, the Commission approved the merger of San Diego Gas & Electric Company and Southern California Gas Company, subject to certain conditions. One of those conditions was that an independent firm should be hired to audit and ensure compliance with applicable safeguards. Larkin & Associates performed the Audit and submitted its report. The report finds that the merged companies complied with the applicable Safeguards but that some changes in the merger conditions are needed. This decision approves the Larkin report and most of its recommendations. Some recommendations are not approved. This proceeding is closed.

Rail Safety and Carrier Division Reports and Resolutions**T-1 Res SX-41****701**

This resolution authorizes the adoption of Guidelines For The Use of Four Quadrant Gates in connection with the installation of four quadrant gate systems at highway-rail grade crossings in the State of California. Gate run-around is a problem at some highway-rail grade crossings. The normal installation of crossing gates covers only the right side of the road. It is possible to go around the gates by driving on the wrong side of the road. Four quadrant gates cover both sides of the road, making it more difficult for motorists to go around the gates. Commission Resolution SX-31 authorized a rule change to General Order No. 75-C, adding Section 6.71 to allow the use of four quadrant gates. This resolution would follow up on that by adopting guidelines for the use of four quadrant gates. (Agenda 3064, Item CA-29, 5/24/01; Agenda 3067, Item T-1 7/12/01)
